MUSTER '78

In education, the idea is to pull together - students, faculty, administration - each contributing his part in reaching the destination.

THE MISSION:

To Become a Licensed Officer in The U.S. Merchant Marine

To Earn a Degree of Bachelor of Science in Nautical Science or in Marine and Electrical Engineering

To Obtain a Commission as Ensign In The U.S. Naval Reserve

Massachusetts Maritime Academy

P.O. BOX D, BUZZARDS BAY, MASSACHUSETTS 02532 / DIVISION OF STATE COLLEGES

OFFICE OF THE PRESIDENT

President's Message

There is a certain sameness to yearbook messages which immediately causes the reader to question the sincerity of the writer. In this, my last formal communication with the cadets of the Class of 1978, I hope, above all else, that you will believe that these final thoughts are genuine. Like other graduating classes of the 70's, you have attended the Academy during difficult years of growth and change. You have been required to master a sophisticated technical degree program, while at the same time you have had to acquire the necessary professional skills to prepare for your careers as licensed merchant marine officers. Above and beyond this, however, you have had to concern yourselves with the delicate problem of establishing within a military format a cadet living style for our new and modern dining hall-dormitory complex in an atmosphere which contrasts sharply with the Spartan conditions which prevailed for the cadets who formerly lived year-round aboard the schoolships. The confined living arrangements and the tight military control of the schoolship era made it fairly easy to effect proper military standards of appearance and conduct. With our present land campus facilities, however, it is something else again to attain those standards which characterize professionalism and self-discipline. It is my considered judgement that the Class of 1978 has made more progress toward achieving this significant goal than any other First Class during my seven years as President of your Academy.

You began your first class year in an angry mood. First, you endured a long delayed shipyard overhaul period which resulted eventually in a loss of your summer vacation. Then, almost to a man, you became understandably upset with my decision to move your license examination time to its traditional and later place in our academic year. In spite of these disappointments, your class has remained reasonable and responsible throughout its leadership year and has demonstrated unusual maturity in conduct and attitude.

You will read these lines for the first time when you receive your yearbooks sometime next fall. You will perhaps read them for a second time twenty-five years from now when you prepare for your twenty-fifth reunion celebration. When you first read them next fall I hope you will be pleased to learn that I think you have done well by this Academy. When you read them on the second occasion twenty-five years from now, I hope that you will be able to say convincingly that your old school did well by you. Good bye, good luck and may God bless each and every one of you.

Lee Harrington

Bush gets some advice .....

The thirteen seniors who left the field for the last time on November 12th had much to be proud of, for they had placed the Mass. Maritime Bucs in the football limelight. These men were the foundation of a program which had grown to championship quality under the direction of head Ruggeri.

It had not always been easy. In their freshman and sophomore years the losses outnumbered the victories. But they never became a beaten team. They believed in themselves and the program. It was this winning attitude that helped propell them to the conference title in 1977.

It's a Bird!?!! .... It's a Plane!!?! ....

Is that Long John Silver?

The heros were many; seven of them were all conference selections. They included tri-captains Ron Butterfield, Mike Fauvell and Marc Palombo along with John Meader, Pat Forbes, Don Keefe, Dan McGuiggan, and Kevin Doherty. The championship was a total effort, brought by about the contributions of many. The season was highlighted by many hard fought victories, especially the one over arch-rival Maine Maritime which also clinched the conference Championship.

In the final game of the year senior Ron Butterfield became the first player in M.M.A. history to have his jersey retired. Number 44 will be placed in the Alumni Gymnasium trophy case as a tribute to his four time all conference selection.

After four years we finally did it!!!!!

TENNIS

The Varsity Tennis Team completed its fall season of intercollegiate competition with a disappointing (0-8) record. In all, a total of fifteen MMA cadets, ranging from First Classman and Captain Phil Ziminsky to a number of promising youngies participated in the competition. Despite the disappointing team record, a number of players performed well in individual matches against opponents in the MSCAC tennis Conference.

Singles players Paul Braman, Phil Ziminsky, Don Murphy, Paul Wei, and Barrett Keating played steadily for the Bucs, with Wei and Murphy having the best records. In doubles play the teams of Phil Ziminsky and Paul Braman, Toby Kitchner and Paul Place, and Dan Hosey and Steve Kanchuga had some impressive victories against other teams. The team of Kitchner and Place did particularly well by winning three of their matches, while losing only to the toughest teams in the conference by close scores. Except for Ziminsky, MMA's cadre of players with the experience of 1977 behind them will be back next season.

Will he hit it????

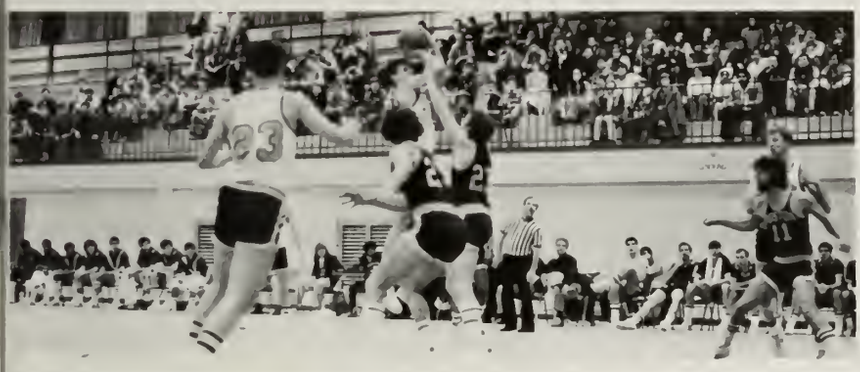
North Adams	5	MMA	0
Framingham	4	MMA	0

Another two for Hanlon



BASKETBALL

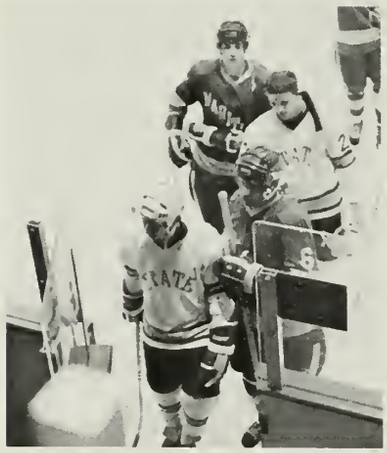
Despite a disappointing season record (4-22) the MMA varsity cagers save a great deal of improvment over previous years.

Following heartbreaking losses to Fitchburg State and Suffolk Universty the Bucs appeared in their first ever tournament, the Whaler Invitational Tournament. MMA won the opener against host Connecticut College only to lose to Coast Guard in the finals. Freshman Mark Dumais was named Tournament M.V.P.

After the Christmas Recess the Bucs went into a slump that saw them lose 13 games by 6 or less points. Late season victories over Curry College, North Adams State and Westfield State were the highlight of the season.

Senior Capain Pat Hanlon was named the M.V.P. for the 1977-78 season. Hanlon completed his four years as a varsity starter and leaves as the all time leading scorer and rebounder in MMA Basketball History. Other honors awarded to Hanlon over his four years included M.S.A.C. All Conference first team selection, All New England honorable mention and E.C.A.C. player of the week (twice). The only other senior on the squad, Jim Ridge, was a three year varsity player who contributed a great deal both on and off the floor.

All of the cagers will be back next season with the exception of Hanlon and Ridge who will be sorely missed.



"No. 4 in your program No. 1 in your heart"

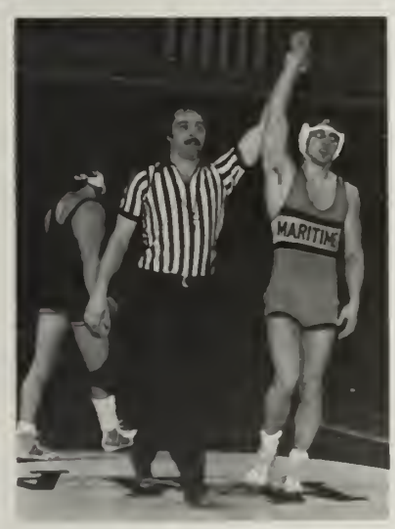
If you can't go around them go through them

HOCKEY

The 1978 varsity hockey team continued to compete with an unreasonable lack of funds and support, but compiled an overall record of 7 wins and 17 losses this season. Amid an expanded 24 game schedule and stiffer league opponents this slate of setbacks isn't totally reflective of the attitude denoted regularly by some. Many factors contribute to the demise of a program. As so often is the case the potential for an excellent program exists, but the dedication and guidance that coincide with an expanding hockey program haven't been fullfilled.

Hopefully basic need will be met and valuable lessons learned by all concerned. Underclassmen Dan Davis, Charles Theaibeault, John Palm, and Tom and Jim Wheble will be returning as experienced lettermen along with this seasons tough and wiry freshmen, who showed great poise and spirit under difficult and depressing situations. A full commitment to MMA hockey by all concerned is needed to return hockey here at the school back to respectability.

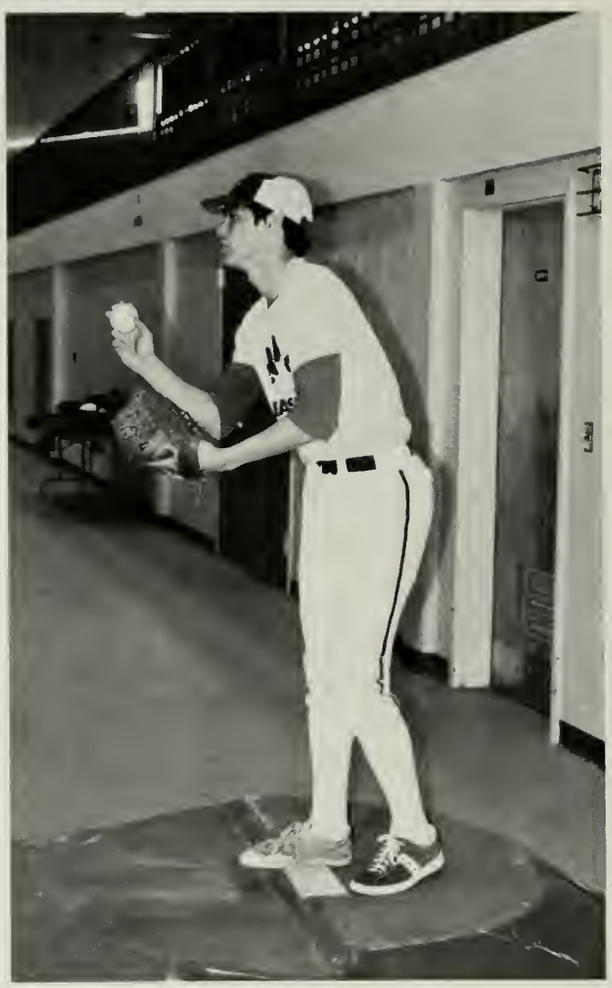
WRESTLING

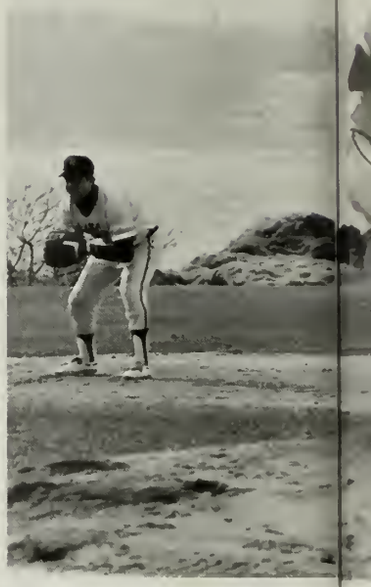


Did I really Win ???

It was a rebuilding year for the Mass. Maritime grapplers as many of this years varsity starters were freshmen. Led by Co-Captains Mike Fauvell and Tom Latronica, the Buc's fought to an 8-8 dual meet record. Considering the toughness of the schedule, which included eight nationally ranked teams, the cadets fared very well.

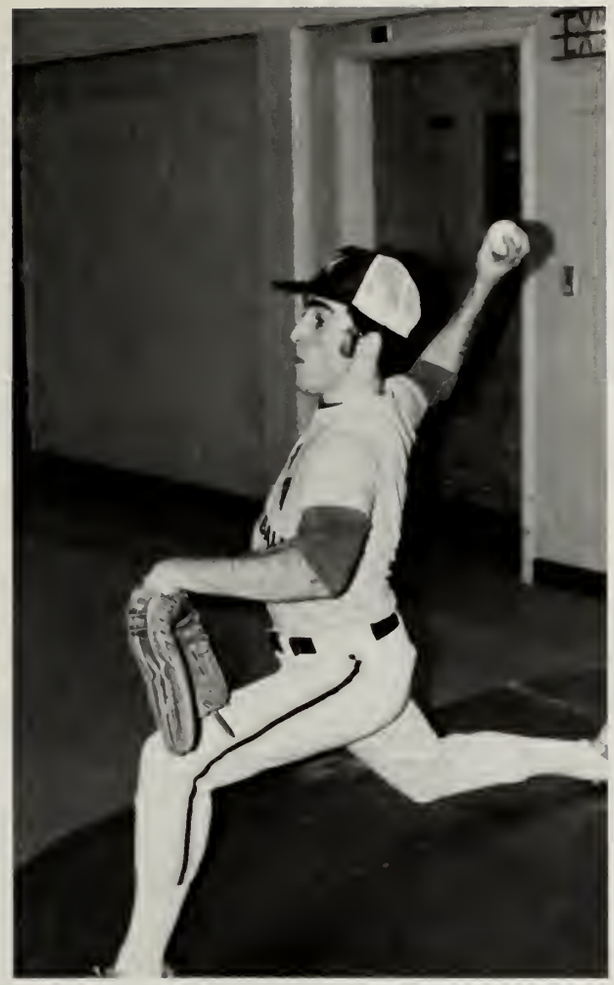
Injuries took a late season toll and only Scott Depersis, a junior from Endicott, New York, captured a New England Title. This is compared to three championships a year ago. The future looks very bright for the team with all but two of the varsity returning to represent the Buccaneers. They will be looking to improve this year's sixth place ranking in New England and fourteenth ranking nationally.





BUCS
BUCS
BUCS
BUCS
BUCS
BUCS

BASEBALL



With the large number of candidates trying out for the team, freshman tryouts had to be held in January. The club was narrowed down to twenty-five players in February and during the month of March, the club worked-out indoors preparing for its opening game.

Prior to the season the young Bucs were not ranked in New England and very little was expected from them. But from the initial week when they were ranked #7 and until the end of the season they remained ranked in New England. It was the first time this had happened at the Acad. The highest the Bucs were ranked was #4 and the lowest #8. Also, mid way thru the season the Bucs were ranked nationally. Another tremendous accomplishment for the team.

The Bucs opened the season against Saint Joseph's and rolled to a 7-0 record before losing to M.I.T. on 6 unearned runs. After the loss they won 4 straight, split with Framingham State and won 5 more games. Included in these five wins were victories over #4 ranked Southeastern Massachusetts University and Suffolk University. The record read 16-3 before final exams.

With finals and the early ending of school in mid-April, the season, as it had in the previous year, slid downhill. The club went 4-12 during this period and ended up with a 20-15 record and ranked #8 in New England. The 20 victories were the most ever at the Academy. What-could-have-been never materialized but the best season in the Academy's history did. The Buccaneer Baseball program was now recognized as one of the best programs in New England.

During the entire year the team received strong leadership from its first classmen, tri-captain Pat Forbes, Tom Campbell, and Kevin Honkala. At the conclusion of the season the responsibility for leading the club in "79" was given to tri-captains Mark Battista, Mike Burt and for the 2nd year in a row Ron Schumitz. With a strong veteran team returning in '79 the Bucs could be an even stronger team next year.

The success of the season is reflected by the number of individual records set, team records set and career records set.

LACROSSE

SAILING

The MMA Yacht Club was established a few years ago with the objectives of operating a cadet sail training program, participating in intercollegiate racing, and running a recreational sailing program.

Since that time, the club has grown with the aquisition of six more 12 foot dinghys along with a 42 foot ketch and a 36 foot racing sloop, bringing our total fleet to twenty-two boats.

The varsity team had a good year in 1977, with the highlight being a clean sweep of the NROTC Northeast Challenge Cup. Of the twelve races, MMA received 10 first places and 2 seconds. Next year the Academy will host this prestigious race in our own dinghy fleet.

The Yacht Club looks forward to expanding further with improved facilities and more small craft.

INTRAMURALS

A R E T E

Intra-Murals were already popular when we arrived and our class was to be no exception. In those dark days when we were "maggots" Intra-Murals was one of the few things that could possibly be enjoyed. That was to remain the theme of Intra-Murals all during our stay. Surely we were highly competitive but yet all who wished were able to participate, work out and E N J O Y! The following is a short chronology of how 78 fared each year.

1974 - 1975

FOOTBALL: We didn't do too well. 11 QB's in huddles, poor officials and upperclass intimidation prevented us from doing too much.

STREET HOCKEY: In Street Hockey we managed to place 2 teams in the playoffs taking 4th place in each division. 4I used a Bernie Burns scorer and Myles Hickey, goalie, combo to make it in. 4A was led by Ronny Andrews. Both teams were eliminated in the quarter finals in the year at the Green Machine.

BASKETBALL: 4G got 2nd in its division and 4D made 3rd. 4D was eliminated in the quarterfinals but 4G lasted until the semi-finals, only to bow to the eventual champs.

VOLLEYBALL: See FOOTBALL above.

SPEEDBALL: This was the first year this sport was played. Ed Henry was the moving force in 4B's second place finish. 4I reached 4th. 4I upset 1st place 3E5 to advance to the final round. 4B lost by a couple in the 1st round.

SOFTBALL: We were, indeed, soft and had no playoff entries.

INDIVIDUAL SPORTS: We W I P E D O U T the upper jobs in Swimming

John Clifford came in 2nd in Golf. We were shut down in the Bowling games. Third was our best in Paddleball. John Trahan won the Road Race in Track & Field. 4A placed first, 4G third. Wally Alkhaledi won Table Tennis. 3E1 Won the cup; 4I finished third overall; 4B ended up in 4th. Angelo Bramucci was in charge of I-M that year.

FOOTBALL: 3E3 managed a 4th place finish but as was the case all 4 years we were a first class team won it.
STREET HOCKEY: We fielded 6 teams in the league that year and 4 were good enough to make the playoffs. 3E2, led by Paul Feeney, captured 1st place in its division. 2nd & 4th were also grabbed by 3E3 and 3D3. 3E1 managed a 4th place finish in the opposite division. 3E1 upset 3E2 in the quarter finals and was the only team to advance to the semi-finals. In the semi-final round they lost by a goal to eventual champ 2E3, who toppled the Green Machine in the finals.
BASKETBALL: Again, 3E2 made a strong showing only to falter in the playoffs. They finished 2nd behind a 1st class all star team. They lost in the quarter final round to eventual champ 2E4. The other playoff entry was 3E4, a 4th place finisher. They fared better, upsetting 4I, to reach the semis.
VOLLEYBALL: 3E1 finished 2nd and 3D3 3rd in league play. 3E1 defeated 3D3 in the semi-final and split its match with 2E3. 2E3 won the match and championship 2-1.

SPEEDBALL: Playoff entries 3C1 and 3D1 didn't fare too well. 3D7 was clearly outclassed in its match with 2E1. 3E1 lost by 1, after rolling back from an 8 goal deficit, to champ 2E3.
SOFTBALL: 3E3 reached the semi-final level in the Round Robin playoffs before dropping out. 3D3 also entered the playoffs.

INDIVIDUAL SPORTS

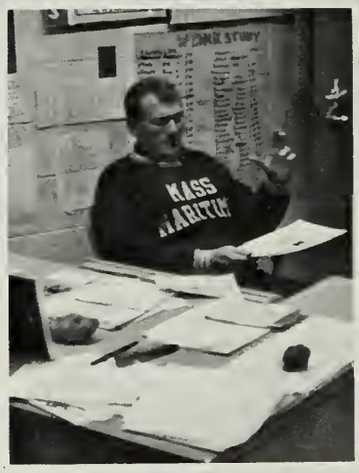
SWIMMING: 3E1 and 3D3 entered swimmers in both fall and spring tournaments.
HANDBALL: Pat Morgan won the championship.
PADDLEBALL: No Luck.
WRESTLING: 6 sections entered men into the wrestling tournament. We captured 5 weight classes.
PISTOL/RIFLE: Jeff Muller finished 3rd in pistol, Tony Fontana 4th. Tony won the Rifle Comp.
TABLE TENNIS: Wally Alkhaledi won for the 2nd year.
ICE HOCKEY: Brian Aballo's team won. B. Burns was high scorer. Section 2F3 won the cup, 3E1 finished 3rd overall with 3D3 fourth.
Angelo Buonucci and Dan Pascqualo ran the Intra-Murals.

1976 - 1977

FOOTBALL: 3 sections made the playoffs in football junior year. 2E4 finished the season in 2nd place in its division and 2D2 finished fourth. 2E2 grabbed the fourth place spot in the opposite division. 2E4 was knocked out in the quarterfinals by 1E2. 2E2 upset 1E1, scoring a safety in the last seconds to advance to the semi-finals where they were roughly handled by 1E2. 2D2 fared the best. They finally beat and upset 1D1 in a game that was won by penetration. They then proceeded to crush 3E5 in the semi-finals. The team to finally fall to 7E2 in a close one. It was the best bid by our class for a championship up to that date.

STREET HOCKEY: Tough, ferocious defense and a scrappy offense got 2E4 a 2nd place finish in its division. They were out only playoff entry. Their first game pitted them against 1E3 who they beat by 2 goals. In the semi-final round they went against 3D1, the surprise team that year. 3D1 fell in a 2-1 decision. The final series pitted 2E4 against 1E2. Here their showing was a disappointment, as they went down 2 games to none in the best 2 of 3 series.

BASKETBALL: 2 squads made it to the playoffs in basketball. 2E4 made a strong showing during the season, strong enough to capture 1st place honors, but varsity sports emptied the team of most of its leaders and they fell in the 1st round.



2E1 fared much better. They grabbed 1st place in their division after an undefeated season. In the playoffs they continued their winning tradition. In the first round they easily beat wildcard 3E5 with a 15 point difference. Then the team went past a determined 4E squad, when 4E stalled in the 2nd half also by a 10 point margin. The 2 of 3 final series pitted them against a strong 3E5 team. In the first game 3E5 beat them despite the fact 2E1 had held the lead at half-time. 2E1 rebounded back to steal away the second game with only minutes left to tie the series at 1 each. In the final game the teams were tied at the half. 3E5 scored first but it was all downhill for them after a 2E1 romped to a ten point victory and thus became the first championship team for our class. The final team record was 14-1 for a squad that had excellent shooters, and a bench that could hold off the dogs long enough to give the beggars rest when needed.

THE ROSTER

Greg Oles (top scorer in division)
Paul Fenney (#2 scorer in division)
George Comiskey (#5 scorer in division)
Pat Forbes
B.J. Davis
Terry Egan
Mike Clement
Ron Barber
Brian Collagin

VOLLEYBALL: 2E4's playoff hex continued as they got 1st place in the division but bowed out in the finals to 1E3.

SPEEDBALL: 4 teams from our class entered this sport and all made the playoffs. 2E1 was knocked out in the quarterfinals. 2D1 was beaten by 2E4, also in the quarterfinals. 2E3 made it to the semi-finals where they were beaten by a goal by 1C3. For 2E4 it was finally winning a crown as they swept all before them, beating 1E3 by 3 in the finals.

THE ROSTER

Steve Paglierani
Dave Chertier
Peter Armstrong
Carl Herrick
Jim Beracewicz
Paul Buckley
Bruce Smith
Rand Billingham
Ralph Dasha
Brian Ahern
Ron Butterfield
Mike O'Brien
John Bornbarsier
Paul Shilalic
Bob Kunkel

INDIVIDUAL SPORTS: In the special tournament for a volleyball entry to Schlitz Tournament, a team comprised of DECKIES won. Right on. But in the Volleyball Tourney, as well as in Basketball, our entries were more concerned with consuming the product of our sponsor than winning the games - uh, we fared accordingly.

BUMPER POOL was won by 2D2's. Pat Morgan won HANDBALL again. Joe Conway got 2nd place honors in paddleball.

Wrestling was won by 2E2's squad; 2E4 took 2nd.

2E4 scored well in Arm-Wrestling - tying for first.

Swimming - Due to the way swimming points were tallied, 2E4 was robbed of The Admiral's Cup despite a strong showing at 2nd place.

2D1 came in third.

The Admiral's Cup was won by 1E3 with 2E4 a close second.

Intra-Murals were run by Angelo Brammuci and Ron Barber. Steve Paglierani was appointed I-M council chairman.

1977-1978 FOOTBALL

We started Intra-Murals senior year by CRUSHING underclassmen in football. 3 teams entered the league and all were in the playoffs. 1E3 and 1D1 got first place honors in their divisions, and 1E2 took second behind THE DECKIES.

In the first game George Hill led 1D1 to an overwhelming 18 - 0 over an unfortunate group of YOUNGIES. A clutch TD catch by Tom Latronica in the final minutes pulled 1E3 past 1E2 by a score of 9 to 6. In the championship game 1E3 scored only once, but it was just enough to cause the DECKIES to lose in the finals for the second straight year.

THE 1E3 ROSTER

Ed Church	Bob Allen
Fred Gallagi	Russ Perry
Bruce Smith	Bob Maule
Jeff Nichols	John Clifford
Gene Brunelle	Mike Clement
Don Spiredigliozzi	Brian Collagin
Dick Pierce	Terry Egan
Myles Hickey	Tom Latronica

STREET HOCKEY: This sport proved to be a disappointment. Two teams made the playoffs. 1E2 was undefeated in play, but a forfeit on senior ski week dropped them to second place in their division. 1E4 grabbed fourth place in the same division after a 5 game winning streak.

1E2 was upset in the quarterfinals by eventual champ 3E1, despite good goaltending by an humongously riptided knuckle-bloodied score of five to two.

1E4 fared better. Pat Forbes' hat-trick propelled them past 2D2 in a major upset with a somewhat less humongous score of four to two.

The 1E4 squad fell a minute and a half short of advancing to the final round when 4E tied and then won in S U D D E N D E A T H by a score of two to one. Paul Feeney scored E4's lone goal.

Our class was N E V E R able to win a Street Hockey Championship, much to our chagrin.

BASKETBALL: Again, a disappointment for our class. Several teams enter the league. None of the teams advanced to the semi-finals. 3E2 was the eventual champ.

VOLLEYBALL: 1E2 was the 1st place finisher over 1D1 in second. Both teams advanced in the playoffs until 1E2 won the championship.

THE VOLLEYBALL ROSTER

Steve Paglierani	Dave Chartier
Pete Armstrong	Jim Baracewicz
Jim Britell	Mike O'Brien
Gary Herendeen	Rand Billingham
Charlie Hill	Ralph Dasha

SPEEDBALL: Three teams entered the playoffs from 78: 1D1 was a 3rd place finisher and then there was 1E1 and 1E2. Both of those teams finished first in their division. 1D1 fell first to challenger 3E3, then 1E1 lost its poise in the second half of their match to watch a close match turn to a rout. 1E2 proved to be the strongest of all. Twice, in their first playoff game, they rolled back from 2 goal deficits to gain a 12-11 victory over 3E4. They won a highly D E F E N S I V E battle 9-2 over 3E3 to win the championship and finlly clinch the cup by a good margin.

THE SPEEDBALL ROSTER

Tim Brassil	Jim Baracewicz
Pete Armstrong	Brian Collagin
Rand Billingham	Charlie Hill
Ralph Dasha	Brian Ahern
Mark Conroy	Ron Butterfield
Dave Chartier	
Mike O'Brien	

INDIVIDUAL SPORTS: Pat Morgan must have set a record by winning his third straight handball championship!

John Clifford was also a repeat as Paddleball Champ. ARETE.

In the 7 mile road race, Whitey Colmer got 2nd place, among a field that included several F I R S T C L A S S.

In the track meet Jim LaRiviere won the shot put and Mike Clement won the hurdles.

In Ice Hockey we had 2 teams, neither of which won the championship but they were the B E S T! 1E2 won the cup with 1E3 coming in 3rd and 1D7 coming in 4th.

Ron Barber and Vic Montanez ran Intra-Murals.

Our class awarded Red Ryan a plaque in gratitude for his service to us.

That wraps up '78 I-M history. It was not the most successful class in terms of winning cups, but Intra-Murals cannot be evaluated simply on that basis. If you evaluated work-outs, fun, competitiveness and the reaction of the brass monkey on the coldest of days that were without a doubt all part of Intra-Murals, then it is evident that they were a success and the monkey smiled despite the pain. It is also evident that they were a success with us. It goes hand in hand that we too, were a success. Perhaps the ancient Greeks had the best word to describe us - A R E T E.

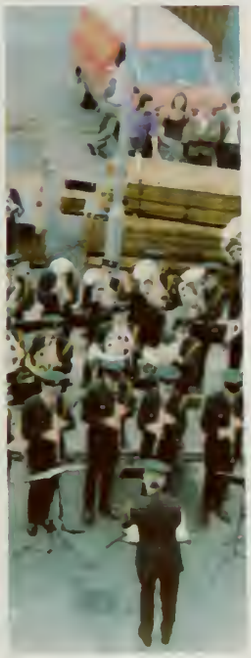
Europe 75

And so it came to pass, the cruise of "75" loomed ahead of us, with all its mysteries and un-certainties. A freshman mob looked on as the last group of heathens brought up under the tutelage of the old school. We had progressed through 2 weeks of orientation, 3 quarters of an experimental academic schedule, and before us now lay the T.S. Bay State, our home for two months.

All our past history as youngies now became inconsequential; only things that were part of living and working on ship concerned us now. The rumors and tales preached to us all during the year were of more interest now. The old saying of "Play in the Bay, lose on the cruise", began to take on new meaning. As the cruise date came near, our thoughts continually focused on what was in store for us. Shipyard for our upper jobs apparently was no bargain, (the Night life of Norfolk was not to hospitable!) which added to our woes.

Alongside training supposedly meant our indoctrination to the ship board way of life. Standing watches, going to labs, learning and practicing fire fighting and safety rules were really never taken to heart, until the realization of having to survive on ship was made clear.

Standing watch usually meant a lengthy 4 hour-10 mile trek across cold steel decks doing detex with the sweet perfume of over running heads, or we got to run a CDT pump every half hour, while on our other half you polished brass, scrubbed deck plates, or wiped oil. Basically, how to be a goffer.



All our thoughts before and during alongside training were mainly concerned with, "what the H can they really do to us." Many came back to the campus to embark on the ship, with a truck load full of non-necessities. We were promptly told either to stow them away never to be seen again until we were departing for good, or to be wise and leave them at home. Out of the week of alongside, 2 days internment was the usual sentence for hard labor. Much effort was put towards the handling and storage of food supplies: crates upon crates were loaded, but all during the cruise we always wondered where it all was hidden. All supplies were handled with the most up to date and efficient form of power: "Youngie Power"!

Our first night aboard the T.S. Bay State was spent mainly cleaning up the filth of our humble abode and kicking out the old inhabitants, fleas, moths, roaches, and vermin. Even showers were on the agenda, for those who braved ice cold water in the dorms. The problem of overcrowding on the ship brought on by the vastly increased enrollment, was solved by the conversion of the #1 hold into living quarters, promptly and aptly named "the Hole". When the first residents arrived to the hole, they were directed to find their appropriate numbered locker and a 5 ft. by 2 ft. rack space. In the good ole days when men were men, they were stuck up in the high rise apartments. Now, in the slums, the big event was when someone moved up to E deck! As the cruise wore on, the men living in the hole were considered

MASSACHUSETTS

the back bone of our class and best represented how much one could take, and still come out with a sense of humor. Finally our day of departure arrived. The docks were lined with parents, friends and relatives waving farewell to all. After leaving Buzzards Bay we quickly gained our sea-legs by coming in close contact with Hurricane Amy. Charlie Cushing immediately became the symbol of our discomfort by being sea-sick from day 1 of the cruise until he safely set foot on land again. The 12 days were good for the vast amount of knowledge gained and the general great feeling of finally feeling as if we were a part of our profession. During our momentous Atlantic crossing, many activities were to be had for all cadets. Some of us had the privilege of being mess cooks, an experience we would never forget. Watches, Training and Maintenance were the basic staple for our livelihood. As youngmen we lacked knowledge and experience of our ship, but we were expected to learn quickly. The highlights of our crossing were numerous. Pat Morgan reached heights of glory by out eating the famed "Sow" Saia during the watermelon eating contest. Equally enjoyable were the boxing matches, most notably Jimbo LaRiviere against Steve Paglierani, the best footwork ever seen in a ring! The nightly movies, set under the canopy of stars, were always a good attraction out on the fantail.

Op Sail 76

As we came closer to Dublin, everyone grew anxious to set foot on land again and relieve some pressure. On the morning of our arrival, Ireland was hidden by a thick blanket of fog, but as we entered the River Liffey, the mist burned off and the green land of Ireland lay ahead. The River Liffey was an unforgettable landmark which smelled as bad as it looked. Our berthing, some 3 ½ miles from civilization, made the return trip from liberty a sight to behold. Youngmen turned into Olympic runners, making a bee-line for the ship, even under the influence.

In Ireland the old tradition of burning the midnight oil came back in the form of night life in Dublin. Sunset never came about until 10 at night, which meant the night clubs such as Mooney's and Byrnes, etc. opened no earlier than 11 or midnight. The beer surpassed our expectations, with Guiness Stout being very popular because of the Guinness brewery tour, where many lingered

to test the beer for quality and quantity.

Dublin, was not without its sensation of fear, caused by continuing unrest in the North. A glass smashing or a retort in the street made locals and shopkeepers jump with a start and turn pale. The Irish were very hospitable, as were their maidens, usually to the dislike of the men folk! We left amidst the playing of the band, with all having enjoyed the sights and sounds, and countryside of Ireland.

For the next three days we ran up the English Channel and around the North Sea, where we had our first view of the White Cliffs of Dover and the French coastline. We proceeded up the river and tied up in downtown Rotterdam. Rotterdam, one of the largest and busiest ports in the world, showed us what a real port facility was all about. Many took advantage of the low fares to hop a train and go to Amsterdam to see the sights and do a little window shopping. Places such as Canal Street, the

PANAMA CANAL

SIR WINSTON CHURCHILL
HULL

Rijksmuseum, Rembrandt's birthplace, Liebestrasse and many more were well worth the train fare to get there. At the same time a group of cadets visited the Heineken brewery, where the legends of a sailor's thirst and capacity were re-established and fortified. Moving on to Copenhagen, the most beautiful and exciting port we would visit - our dreams of how one could live were realized. -

The women were as beautiful as we were told to expect, and most of us were already planning to come back when the fields were a little greener with profits. Danish hospitality was outstanding as were their elephant beers and hot dogs. - Many who visited the Carlsberg brewery were convinced of the elephant beer's potency while taste testing the many selections put out for them at the end of the tour. Culture abounded here in Copenhagen and many took it upon themselves to make the treacherous and watery climb to ride the bulls amidst the fountains of water and laughing friends. Although we didn't want to depart, we all too soon set sail for our last liberty port: South Hampton.

The passenger ship terminal served as our berthing place and as always we took off to see the sights. Those who still had funds left, did not restrict ourselves to South Hampton alone; many of us boarded trains to Portsmouth and London and took in the sights. The days of being in South Hampton began to be a bad joke, as the problems with our generators intensified and rumor had it that we might be staying a wee bit longer. Yet after a

6 glorious days, we departed South Hampton for home.

As final days of cruise stemmed down, our internship as 4th class also became past history. We all had learned a great deal, and our initiation into the life of the sea completed. The opportunity to decide whether to be deckie or engineer was given us, and destinies and futures started. The Bicentennial Year was upon us, we were 3rd jobs now, or second jobs, however we wanted to look at it. Basically our duties were intensified as were our levels of responsibility. Operation Sail was our moment in the sun and a chance to become recognized as part of an operation which would be remembered for years to come. We had been assigned as Communications liaison ship for Operation Sail. Our stateside cruise began with high expectations of much learning and experience. As it turned out, training was severely lacking and the only main concerns were to put forth "a good showing" and please all.

Bermuda was our first port of call and by far the best. Bermuda was fantastic. The 10 speed enthusiasts were well off, but the thing to have was a MoPed, Many frequented the fabulous beaches of pure white sand and plush hotel resorts. The water was crystal clear blue, warm and refreshing, which made the hot trip down toward the equator seem well worth it. It was the off season for tourists, but for us it was great.

Best remembrances of Bermuda were the terrifying bus rides at midnight, and bottles of cold

Heineken beer, but three days just isn't enough to see much.
On the 20th of June, the Newport race began. The Bay State and HMS Eskimo were the starters and we were promptly selected to pick up the life rafts of the Liberatard-Juan Sebastian collision, an omen of things to come.

Following a six day passage to Newport, R.I., we put into harbor and began to realize that, while the Tall Ships were welcomed with open arms, ships such as ours accompanying them were not. The majestic and stately mansions of the well to do of Newport made an equally grand impression on those of us who ventured to visit such places as "The Breakers," an estate of the Vanderbilts.
Onward to New York. Well, almost, we ended up berthed in Bayonne, N.J. (where all things labeled "return to sender" end up). July 4th, best to be remembered at the V.F.W. Club. It was 10¢ a beer night, and cadets would not be denied. The porch landing was an insufficient perch for many to see the fireworks, but the top of the roof was excellent. The whole situation was deemed so disgusting that Admiral Harrington and Capt. McNaughton decided to pull the Bay State out of the "operation" and spend some time in Buzzards Bay instead. This turned out to be the best port of the cruise, since we all could go home.

The ship rejoined Op Sail at Boston and finally made a grand entrance. We were properly greeted and treated in our old stomping grounds, as all six New

England governors, the Secretary of the Navy, and assorted dignitaries reviewed the Tall Ships Parade from the Bay State's decks. While in Boston, we were treated to a huge gala festivity at the Copley Square Hotel, where there were only 700 cadets and 1400 wild insurance secretaries. If you didn't have at least 2 ladies on each arm you were considered a failure to mankind. We proceeded to Philadelphia independently, leaving Op Sail behind for good after Boston.

Philadelphia, best to be remembered as W.C. Fields' city of brotherly love, was not that way for us, as far as the base commander was concerned. Philly was great but liberty sparse. Re-fueling took top priority. Many frequented the officers' clubs in search of game, but instead succeeded in drinking the places dry. The Phillies game was great, providing you arrived before the first couple of innings. The rest of the game was a scoreless affair, and the fights in the stands brought more attention than the play on the field. So endeth our second cruise, we were now upper jobs, tried and true.

This year it was our turn to take the T.S. Bay State down to shipyard and go to work. Braswell Shipyard in Boston was selected as our destination, which conveniently afforded us the luxury of going home on liberty. While at hardworking Braswell, a place which will long burn in the hearts of many, the allotted 4 week period for ship's repair became 8 weeks. The most drastic results were that we ended up minus a

BAY STATE

Chief and First Asst. Engineer, exactly one week before departing on the cruise.

The epitome of all our frustrations at shipyard came when the Admiral made his decision to move coasties to April. But the decision was made, right or wrong. It was final and that was it. After an almost permanent stay in shipyard the cruise finally began with a new complement of engineers and deck officers. Much credit should be given to Mr. McMurray, Mr. Caron and Mr. Lamb, who lent experience and stability to a tough situation. Our new chief, a man from Weymouth was Chief Doherty, and first assistant Mr. Low, both excellent individuals, who pulled us through and got us moving towards our destination: Ireland. Dublin was about the same as we had left it 2 years ago, with most of the excitement worn off. The major difference was that now we were the 1st jobs, with overnight liberty and plenty of preparations well made

to get out of the trenches of the city and head for the country. Many cadets of our class had 10 speed bikes but some had the bucks to rent cars. We packed up and took off to explore the countryside. Many parts of Ireland were visited: Bray Head, Howath Head, and the Guinness Estate. Night life was good in places such as Zchavago's and Lower Baggot Inn. After Ireland, with its fantastic countryside and stately homes, it was onward, through the locks to the land of Scots. Edinborough, set against the majestic background of high mountains and rolling plains, had many places of interest as well as a plentiful number of excellent stores and shops to browse in. Again, as in Dublin, it was explore the city for a day on bikes and then head out on a long journey to parts unknown in the countryside.

Some of us rented cars; others went by bus or train. The exceptional views alone were well worth the price of transportation. Loch Ness was the furthest away to travel, but we survived the 5 ½ hour ride by train or car. Alas! No sightings of the monster. Others visited the villages of Pit Lochrey and Perth and many more. Edinborough's famous and overbearing castles looked out upon the vast, growing city, truly a beautiful sight to behold at night, with its lovely gardens and parks laid out below. The pubs were much to the taste of all - plenty of Harp and Mac Ewan's ale to quench the thirst of tired and well-traveled cadets. For the stronger type blokes there was always Vat 69 to simmer them down! Copenhagen was next on the cruise agenda. Tivoli was the center of all attention, with more attractions than would be deemed possible. The ladies were all gorgeous and the prices pretty much the same: expensive. Again the mermaid and water front parks were explored and the art of throwing frisbees introduced to the Danish. Others visited Sweden by catching an eventful ride on one of Copenhagen's many hydrofoils.

Some of the more macho of the class led

on by the distinguished alumni David Cox dared to venture upon the nude beaches of Copenhagen, where the on-lookers were more embarrassed by being seen with clothes than were the natives with them off. No visit to Denmark would be complete without stopping at the home of the elephants. The Carlsberg Brewery was alive and well and thoroughly checked out for the quality of its beer. The elephants were excellent as was the sight seeing, but, alas, never time enough spent in each country. Our last stop of cruise '77 was up the Elbe River, one of the busiest thoroughfares in the world. Cuxhaven was a small quiet town, much to the dismay of cadets, but thankfully Hamburg was quite interesting, with a massive formal protest against nuclear power being the main attraction on the streets. Many cadets spent their final sums of money to buy gifts and souvenirs and also to sample good German cooking and excellent Heineken or Becks beer.

Some of the wild crew took on St. Paulie's with predictable results agreeing never to venture back there again without full armor and some clout. The German people were most hospitable, and the biggest gate breakers. Hundreds of fans came to view the vintage W.W. II model. Being such a center of attraction, we left for home the same way we came, with an excellent band playing Benny Goodman favorites. ETA for Boston was August 20th.

On our voyage home we have many thanks to Mr. McMurray, who without fail, and under no obligation to anyone, held classes every day at sea for those who were interested in learning a little more than required. During long cruise back, many activities kept boredom at a safe level: nightly movies, boxing matches, with good head to head competition, and excellent musical entertainment provided to us by John Wilson and Walter Boychuk, not to forget our greatest combo of Stevie Steam drum and the D.C. Heaters.

Entering Boston Harbor was quite impressive with the setting sun high lighting the Boston skyline. To celebrate our return to Boston, youngie talent night was put on to the delight of many. Our anchorage was just outside of Commonwealth Pier, with the Boston Skyline and city lights as background. We had a pleasant night, movies, listening to tunes on the poop, and reminiscing of times past.

The T.S. BAY STATE made a couple of pleasure cruises, for the benefit of 1st class families and friends, an excellent gesture by all involved, before the ship finally headed home for Buzzards Bay. Our last days of being on a "Classic" were ended, and we headed out for a long 2 weeks of vacation before returning for our final year.

A.H. Munter '78

Tradition.

There was once a time when the skysails and moonrakers of America's tall, swift, beautiful clipper ships dominated the high seas . . . a time when Americans were the first to cross the Atlantic under our own steam . . . a time when *we* ruled the waves.

At American Export Lines we are proud of the tradition of American seamanship, and we're working to achieve American leadership again. We're proud of our *own* half-century old traditions. And proud that today we offer the newest vessels, the swiftest service, the most direct routes to the fastest-growing parts of the world.

That's why all our ships are American built. American manned. American operated.

And named, with pride, after their American ancestors—so you can still put your cargo aboard the *Defiance* or the *Defender*, the *Lightning*, the *Red Jacket*, the *Stag Hound* . . .

In the Tradition of the Great American Ships

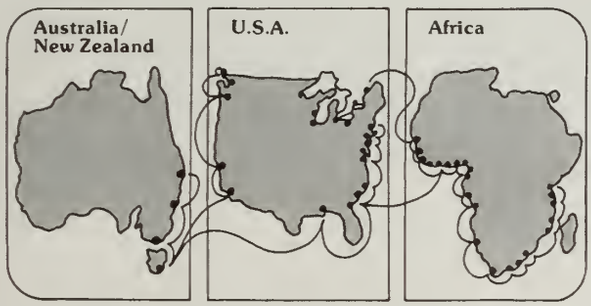
Farrell Lines. It's a grand old flag line. With a grand new look.

At Farrell Lines, we're proud to do a little flag waving—right from the sterns of the sixteen vessels in our fleet. With all the dynamic changes taking place at Farrell Lines, we've never carried Old Glory to so many places as we do today.

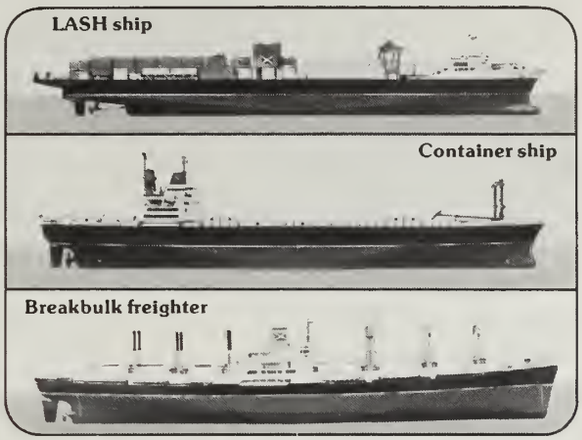
Our primary destinations are growing so fast, it's hard to keep up with them. First, there's Africa, where we go to East, South and West African ports. Then, there's Australia and New Zealand. And most recently the islands of the South Pacific.



We've expanded our full-service departure points as well. We now sail from all four U.S. coasts: East and West Coast ports, Gulf ports and the Great Lakes, and Canadian ports on both coasts.

Our ships and equipment are the most modern LASH vessels and fully containerized ships; and ships that provide breakbulk, reefer, heavy lift and deep tank service.

We've recently completed a program of "jumbo-ization" to increase the carrying capacity of our container fleet—a fleet that is entirely American built, manned and supplied. So American dollars stay at home.



So if you have something going our way, let's do a little flag waving together. Call Farrell Lines, the American flag line. East Coast: One Whitehall St., NY, NY 10004. West Coast: One Market Plaza, San Francisco, CA 94105.

People power.

United States Lines has the most modern equipment and facilities to help you move the goods: new terminals, fast ships, standard and specialized containers, wheeled chassis, electronic communications and computerized controls. But our real strength is our people afloat and ashore, the thousands of dedicated men and women behind the machines. They're the best in the business and they make it all happen — smoothly, economically, dependably.

It all adds up to Service with a capital S: Our Tri-Continent Container Service that saves you time and money on shipments to and from anywhere in Europe; the U.S. East and West Coasts; Panama; Hawaii; Guam and the Far East.

Plug yourself into our people power. Call your nearest United States Lines office and ask for a free cost analysis of your shipping needs.
